
Endurance Wind Power Inc. is a manufacturer and supplier of a complete line of small to mid-sized, grid-connected wind turbines. Endurance Wind Power was founded on the strong belief that our planet needs affordable, long lasting and sustainable clean energy.

Our customers, who include homes, farms, schools, businesses and even municipalities, can produce their own power cost-effectively, leading the way for the new generation of clean energy.

Our Surrey - based team is among the most talented in the industry and is positioned for growth in this exciting industry. You too could be a part of our success.
